

A group of 5

DigitalWater2020 is composed of five European projects funded by the European Union's Horizon 2020 Research and Innovation programme. All these projects address digital water related issues

Acting to

- Set synergies and complementarities in terms of development, research and communication
- Join efforts and share experiences about the impact of digitalisation on the water sector
- Support a more efficient means of managing and protecting water resources, solving several challenges related to resource efficiency, climate change and sustainable development

In order to

- Support decision making and bring innovative water digital solutions to the market
- Achieve wide uptake among utilities, municipalities, SMEs and start up, software industry and general public.

Organised into 5 Task forces

The synergy Group DigitalWater2020 projects have received funding from the European Union's Horizon 2020 Research and Innovation programme under Grant agreement No.820954 for Digital Water.City - Grant agreement No.821036 for Fiware4Water - Grant agreement No.820985 for NAIADES - Grant agreement No.820751 for ScoreWater - Grant agreement No.832876 for aqua3S
